

Table of Contents

Foreword, by <i>Vittorio Carlei</i>	IX
1 Generative AI and Value Creation for the Company	1
1.1 Unpacking generative AI: Core concepts and mechanisms	1
1.2 The current landscape: AI in today's business world	8
1.3 Generative AI as a new creative frontier	15
1.4 The new frontier: How generative AI is reshaping corporate communication	23
Insight. Pioneering Generative AI in Commercial Real Estate	26
2 AI for Process Management, Internal Communication, and HR	31
2.1 AI in business processes: Enhancing efficiency and adaptation	31
2.2 Revolutionizing internal communication	40
2.3 Human resource management in the age of AI	46
Insight. Artificial Intelligence and HR: What Will the Combination Generate?	54
3 The Impact of AI on the World of Information	59
3.1 From print to pixels: The digital transformation in media	59
3.2 The algorithmic newsroom: Efficiency, creativity, and challenges	65
3.3 The business of AI in news: Licensing deals, revenue streams, and reader impacts	71
Insight. Generative AI and Its Implications for Media and Journalism: From Threat to Opportunity	83

4	Stakeholder and Reputation Management through AI	87
4.1	From handshakes to data points: The modern evolution of stakeholder relations	87
4.2	Leveraging AI in stakeholder management: A step-by-step approach	93
4.3	Machines as stakeholders: Navigating the algorithmic paradox	104
	Insight. Leveraging Generative AI for Stakeholder Analysis and Reputation Management	107
5	AI and Applications for Marketing	111
5.1	The Renaissance of marketing in the AI era	111
5.2	Augmented customer experience	122
5.3	AI-Driven advertising strategies	133
	Insight. The AI Marketing Era	141
6	AI, Social Media Platforms, and Content Creators	145
6.1	The role of AI in social media	145
6.2	Evolving social media advertising	157
6.3	Embedding AI in the creator economy	161
	Insight. The Complex Relationship between AI and the Creator Economy	170
7	Augmented Events: Ideation, Management, and Production	173
7.1	An industry overview	173
7.2	Transforming the event life cycle	179
7.3	The event horizon: Envisioning the next frontier	186
	Insight. AI in the Meeting Industry	190
8	Data Ownership and Privacy	193
8.1	Data ownership in the AI landscape: Evolution and challenges	193
8.2	The consumer's centrality in data ownership and privacy	197
8.3	Corporate blueprints for traversing data and privacy challenges	201
	Insight. AI for Good	205
9	Transparency, Ethics, and Responsibility	209
9.1	The ethics of AI-driven decision-making	209

9.2	Explainability and the “Black Box” dilemma	214
9.3	The Urgency of corporate responsibility in the AI era	217
	Insight. A Responsible Proposal for a Paradigm Shift, from AI-Driven to Human-Driven	221
10	Evolutionary Trends, Risks, and Opportunities	225
10.1	Intelligence as a service	225
10.2	Mitigating AI risks	230
10.3	AI as Your Work Copilot	232
	Insight. AI for the Brands of the Future: Trends and Possible Evolutions	236
11	The AI Behind This Book	241
11.1	The Opportunity of a lifetime	241
11.2	A New methodology	242
11.3	The need for constraints	247
