

# Contents

<b>Preface</b>	<b>1</b>
<b>Acknowledgements</b>	<b>3</b>
<b>1 Introduction</b>	<b>5</b>
1.1 What is Python? . . . . .	5
1.2 Compiled vs Interpreted . . . . .	6
1.3 Object-Oriented Programming . . . . .	7
1.4 High-level Programing Language . . . . .	8
1.5 Static vs Dynamic Semantics . . . . .	9
1.6 Installing Python . . . . .	12
1.7 How Do You Interact with Python? . . . . .	14
1.7.1 Spyder . . . . .	15
1.7.2 Jupyter Notebook . . . . .	15
1.7.3 PyCharm . . . . .	17
1.7.4 An outsider: iPython . . . . .	18
<b>2 First Steps With Python</b>	<b>21</b>
2.1 The Logic Behind A Code . . . . .	21
2.2 Objects in Python . . . . .	22
2.3 Object Types . . . . .	24
2.3.1 Integers . . . . .	24
2.3.2 Floats . . . . .	26

---

2.3.3	Strings . . . . .	27
2.3.4	Formal String-Number Concatenation . . . . .	32
2.3.5	Boolean . . . . .	33
2.4	Commenting the Code . . . . .	34
2.5	Reserved Keywords . . . . .	36
2.6	Excercises . . . . .	36
2.7	Read the Code . . . . .	37
2.8	Code Bloopers . . . . .	38
2.9	Solutions to Excercises . . . . .	38
<b>3</b>	<b>Tuples, Lists, Sets, and Dictionaries</b>	<b>41</b>
3.1	Tuples . . . . .	41
3.1.1	Slicing Tuples . . . . .	43
3.1.2	Assigning and Chaining Tuples . . . . .	45
3.2	Lists . . . . .	46
3.2.1	Updating a List . . . . .	47
3.2.2	Deleting a List Element . . . . .	49
3.2.3	Slicing Lists . . . . .	49
3.3	Indexing . . . . .	50
3.4	Exercises on Lists . . . . .	52
3.5	Python Methods . . . . .	53
3.5.1	Methods for Lists . . . . .	55
3.5.2	Excercise on Methods . . . . .	60
3.5.3	The <code>zip()</code> function . . . . .	60
3.6	Sets . . . . .	60
3.6.1	How to Create a Set . . . . .	61
3.6.2	Methods for Sets . . . . .	62
3.6.3	Excercises on Sets . . . . .	67
3.7	Dictionaries . . . . .	67
3.7.1	How to Create a Dictionary . . . . .	67
3.7.2	Casting and Recasting Objects . . . . .	68

---

3.7.3	Retrieving a Value . . . . .	70
3.7.4	Setting Values . . . . .	70
3.7.5	Multi-level dictionaries . . . . .	71
3.7.6	Excercises on Dictionaries . . . . .	71
3.8	Solution to Excercises . . . . .	72
3.8.1	Solutions to Excercises on Lists . . . . .	72
3.8.2	Solutions to Excercises on Methods . . . . .	76
3.8.3	Solutions to Excercises on Sets . . . . .	76
3.8.4	Solutions to Excercises on Dictionaries . . . . .	77
<b>4</b>	<b>Conditional Statements and Loops</b>	<b>79</b>
4.1	Indentation . . . . .	80
4.2	if Statements . . . . .	80
4.3	else Statements . . . . .	83
4.4	elif Statements . . . . .	84
4.4.1	Condition Check . . . . .	85
4.5	The for Loop . . . . .	85
4.5.1	For Loops On Determined Iterables . . . . .	88
4.5.2	for Loops Over Iterators . . . . .	91
4.5.3	Creating Lists Through for Loops . . . . .	92
4.5.4	Iteration Over Multiple Lists . . . . .	93
4.5.5	Excercises on for Loops Over Lists . . . . .	94
4.5.6	for Loops Over Dictionaries: Details . . . . .	95
4.5.7	for Loops With Multi-Level Dictionaries . . . . .	97
4.5.8	Excercises on for Loops Over Dictionaries . . . . .	98
4.6	while Loops . . . . .	99
4.6.1	Excercises on while Loops . . . . .	101
4.7	List Comprehension . . . . .	102
4.8	An Alternative to for Loops . . . . .	104
4.9	Read the Code . . . . .	107
4.10	Solutions to Excercises . . . . .	108

---

4.10.1	Solutions to Exercises on <code>for</code> Loops Over Lists . . . . .	108
4.10.2	Solutions to Exercises on <code>for</code> Loops Over Dictionaries . . . . .	113
4.10.3	Solutions to Exercises on <code>while</code> Loops . . . . .	113
<b>5</b>	<b>Functions</b>	<b>115</b>
5.1	Writing a Function in Python . . . . .	116
5.1.1	Default Parameters . . . . .	117
5.1.2	Functions With 2 Arguments . . . . .	118
5.1.3	The Parameter <code>*args</code> . . . . .	118
5.1.4	The Parameter <code>**kwargs</code> . . . . .	120
5.1.5	Formal Order of Parameters . . . . .	121
5.2	Functions Calling Functions . . . . .	122
5.2.1	Logical Flow of the Problem . . . . .	123
5.3	Exercises on Functions . . . . .	125
5.4	Read the Code . . . . .	126
5.5	Code Bloopers . . . . .	126
5.6	Useful Built-in Functions . . . . .	128
5.6.1	<code>lambda</code> Functions . . . . .	128
5.6.2	<code>map()</code> Function . . . . .	129
5.6.3	<code>filter()</code> Function . . . . .	131
5.7	Solutions to Code Bloopers . . . . .	132
5.8	Solutions to Exercises on Functions . . . . .	133
<b>6</b>	<b>Object Oriented Programming and Classes</b>	<b>137</b>
6.1	Object Oriented Programming . . . . .	137
6.2	Classes . . . . .	140
6.2.1	Writing a Class in Python . . . . .	140
6.2.2	The Special Method <code>__init__()</code> . . . . .	142
6.2.3	Adding More Methods . . . . .	143
6.2.4	Creating and Using a Class . . . . .	144
6.2.5	Class Inheritance . . . . .	147

---

<b>7</b>	<b>Python Modules: pandas</b>	<b>153</b>
7.1	Installing and Importing a Module . . . . .	153
7.2	Managing Databases With Pandas . . . . .	154
7.2.1	Import External Files as Data Frames . . . . .	155
7.3	Indexing . . . . .	158
7.3.1	Columns . . . . .	158
7.3.2	Rows . . . . .	162
7.4	Adding new columns . . . . .	162
7.5	Working with dates . . . . .	165
7.6	Grouping . . . . .	166
7.7	Excercises on Pandas . . . . .	168
7.8	Solutions to Excercises on Pandas . . . . .	168
